Innovation Starts Here.

Education is the gateway to innovation. At Monsanto, we believe that innovation and new ideas will help solve the challenges of tomorrow. Challenges such as how to help farmers feed and clothe our growing world while preserving valuable resources - like water and soil - for the future.

Improving Agriculture. Improving Lives.

That's what Monsanto is all about.

International Food and Agribusiness Management Review

Supporters and Partners

STRONG ROOTS - BRIGHT FUTURE

The IFAMR Open Access Project is supported in part through contributions from these institutions. Scholars, practitioners, students, and policymakers may now read and download the most current and archival content from the IFAMR website. The Board of Directors of the International Food and Agribusiness Management Association feel that open and immediate access to IFAMR's articles and case studies will dramatically elevate the quality of scientific inquiry and instruction around the world in the field of agribusiness. If you would like to support this effort please contact: Kathryn White, Email: ifamr@ifama.org.
