

Transforming the  
**Global Food  
& Fibre System**  
June 17–22, 2023

**2023** WORLD CONFERENCE  
NEW ZEALAND

## CALL FOR SYMPOSIUM PAPER REVIEWERS

The Academic Symposium will feature a **Best Paper Competition** and offers a fast-track and comprehensive paper review for a **Conference Special Issue** of papers that will be published in the IFAMA's journal *The International Food and Agribusiness Management Review*.

### Would you be willing to serve as a paper reviewer for the Symposium?

This task involves reviewing extended abstracts, proposals and papers. You may be assigned between 3-6 papers or abstracts.

We invite you to involve your network (colleagues, postdocs, advanced PhD students, etc.) to support you with this task.

Complete instructions will be provided, and we ask that you complete all assignments within 20-30 days after receiving them. All reviews and papers will be submitted electronically.

\*Reviewers will be honored as a member of the 2023 Scientific Reviewing Committee and receive a certificate.

If you have any further questions, please do not hesitate to contact us.

Nic Lees, Symposium Chair  
Meike Rombach, Deputy Chair  
Lincoln University

Please highlight the areas that help us identify your areas of expertise then email to us at [academic@ifama.org](mailto:academic@ifama.org)

Yes, I can help review papers:

I can contribute to the following areas:

- Agribusiness strategies to optimize value chain management
- Entrepreneurship in agribusiness innovation
- Food, health, security, and safety issues

- New business strategies and technologies to avoid food loss and waste
- New financial schemes and insurance in agribusiness
- Customer orientation and marketing in agribusiness
- Commodity price volatility and availability
- Agribusiness education in the 21st century
- Cooperatives: collective action solutions-
- Attracting and involving young people in the ag sector
- Innovations in food production, distribution, and consumption
- Farmers delivering on bold ambitions
- Forward-thinking developments in fibre
- Research indicating where we are headed to get ahead of the curve
