STUDENT CASE COMPETITION

18TH ANNUAL

Learn more: ifama.org/2023-Student-Case-Competition

WHY COMPETE?

**Gain the attention of
future employers**

**Work below the
surface on real-world
challenges**

**Fine tune your
problem-solving
and analytical skills**

**Represent your
university, institution
or company—and
your country**

**Capitalize on
global networking
opportunities**

**Actively engage
with global leaders
and changemakers**

**Earn the prestigious
title: World Champions**

Join us in Christchurch, New Zealand for the 2023 World Conference which promises to be bigger and bolder than ever—bringing together over 1,000 primary sector leaders and changemakers from around the world.

Since 2005 IFAMA has delivered an unparalleled experience for students, graduates and early career professionals who are pursuing careers in food and agribusiness—establishing itself as the leading global championship. Competing teams have four hours to analyze a complex case study based upon a current real-world problem impacting the food and ag sector. The competition challenges teams to develop a creative, practical, and strategic solution to the case, and then present their analyses and recommendations before a panel of judges. This competition provides an unparalleled experience in developing and showcasing emerging talent.
