Value Generation

The IFAMR Open Access Project is supported in part through contributions from these institutions. Scholars, practitioners, students, and policymakers may now read and download the most current and archival content from the IFAMR website. The Board of Directors of the International Food and Agribusiness Management Association feel that open and immediate access to IFAMR's articles and case studies dramatically elevates the quality of scientific inquiry and instruction around the world in the field of agribusiness. If you would like to support this effort please contact: **Kathryn White, Email: ifamr@ifama.org**.
